NEWS RELEASE

USG Launches Custom Shower Tray Program for USG Durock™ Brand Shower System *Custom fit, pre-sloped trays offer limitless options*

CHICAGO—Jan. 28, 2014—USG Corporation (NYSE: USG), a leading building products company, has created a custom shower tray program designed specifically to integrate with the USG Durock™ Shower System, which entered the market in Sept. 2013. Ideal for both new construction and repair or remodel projects, the USG Durock™ Custom Shower Trays take customization to the next level for the contractor or homeowner.

“The custom shower tray program allows us to offer a quality, affordable, custom shower tray installation solution to customers. This is unique in the marketplace today—offering a high-performance custom shower tray solution, delivered to customers in days, rather than weeks,” said Scott Crandall, national account sales and business development manager, Substrates and Specialty Division at USG.

USG Durock™ Custom Shower Trays are manufactured from 3-pound density expanded polystyrene foam (EPS) and replace traditional mortar beds with a custom fit, pre-sloped, high-density shower tray that accepts unmodified thin-set mortar. Given the exact shower dimensions, the tray can be computer numerical control (CNC) cut to fit virtually any size and shape of shower base configurations, including: square; neo corner; L-shaped; rectangular; round; or D-shaped.

The custom shower tray program builds on the September 2013 launch of the USG Durock™ Shower System, a fully-bonded waterproofing system for tiled shower installations designed to control moisture independently of the tile covering, while creating a solid base for a long-lasting shower. The USG Durock™ Shower System is more adaptable to job-site conditions, is barrier-free friendly, and offers significantly more grate options and superior grate finishes – allowing homeowners to choose an open-concept style that fits their bathroom aesthetic.

USG offers more than 50 different grate options (sold separately) in up to 10 finishes including: Oil Rubbed Bronze, Brushed Stainless, Polished Stainless, Pewter, Satin Gold, Black Chrome, Antique Copper, Brushed Nickel, Polished Nickel and Chrome.

Certified by IAPMO, USG Durock™ Custom Shower Trays are available to order as one-offs or in large quantities. The order form can be found on www.durockshowersystem.com or through participating distributors. For more information on USG Tile & Flooring solutions, visit www.usg.com.

About USG

USG Corporation is a manufacturer and distributor of innovative, high-performance building systems through its United States Gypsum Company, USG Interiors, LLC, L&W Supply Corporation and other subsidiaries. Headquartered in Chicago, USG Worldwide operations serve the commercial, residential, and repair and remodel construction markets, enabling our customers to build the outstanding spaces where people live, work and play. USG wall, ceiling, exterior sheathing, flooring underlayment and roofing systems provide leading-edge building solutions, while L&W Supply branch locations efficiently stock and deliver building materials throughout the United States. USG and its subsidiaries are proud sponsors of the U.S Olympic and Paralympic teams and the Canadian Olympic team. For additional information, visit www.usg.com.
